PROFILE

As a dedicated student, I have immersed myself in the world of frontend development, laying a solid foundation for my career aspirations. Currently, I am actively expanding my knowledge and skills in HTML, CSS, JavaScript, React, and UI/UX Design. Looking ahead, my passion for frontend development drives my ambition to excel in the industry. I am dedicated to realizing my goal of becoming a proficient and innovative frontend developer.

EDUCATION

Institut Teknologi Dan Bisnis STIKOM BALI

Denpasar, Bali

Bachelor of Information Systems

August 2021 - Present

- GPA : 3.46 / 4.00
- Relevant Subjects : Web Programming, Object Oriented Programming, UI/UX Design.
- Extracurricular activities : Multimedia Design

PROJECT EXPERIENCE

Friskay Product Showcase

- Developed and designed the Friskay product website entirely from scratch using HTML and CSS. Fully designed the UI in Figma, encompassing layout, colors, and design elements.
- Implemented a smooth scrolling effect with JavaScript to elevate the user experience.
- Presented Friskay product information attractively, incorporating product descriptions, customer reviews, and interesting facts.

Google Extension Development

- Developed the 'Data Input Manager' browser extension using HTML, CSS, and JavaScript.
- Designed to save and manage input data lists, the extension utilizes local storage for persistent data even after browser reloads.
- Implemented features include saving input data, saving current URLs, and deleting all data with dedicated buttons.

Blackjack Game

- Developed a Blackjack game using HTML, CSS, and JavaScript. Features include random card drawing with correct values, tracking player status, bets, and outcomes.
- Enhanced user experience with sounds for game events and real-time updates for card display and money.
- Implemented reset function for game replay.

Portfolio Website

[\[Link\]](#)

- Developed and designed a responsive personal portfolio website entirely from scratch using HTML, CSS, and JavaScript.
- Implemented a smooth scrolling effect with JavaScript to enhance the user experience.
- Presented personal and professional information attractively, incorporating personal data, skills and project showcases.
- Ensured the website is fully responsive and scales down smoothly on different screen sizes and devices, providing an optimal user experience regardless of the device used.

CERTIFICATIONS

Scrimba HTML and CSS Courses

- The Scrimba Certification in HTML and CSS courses provides a comprehensive introduction to web development fundamentals. Through interactive learning, participants gain a strong understanding of HTML structure, elements, and tags, as well as CSS selectors, properties, and values. The curriculum covers advanced layout and design techniques using Flexbox and Grid.

Scrimba JavaScript Courses

- The Scrimba Certification in JavaScript courses provides a comprehensive understanding of both fundamental and advanced JavaScript concepts. Through interactive learning and hands-on projects, participants master JavaScript syntax, control structures, functions, events, asynchronous programming, and modern ES6+ features. This certification equips individuals with the skills needed to develop dynamic and interactive web applications.
